Ideas and Recommendations

Judges are looking for the following content when they read your 200-word descriptions.

Best Low/No Sugar Drink / RTD Functional Drink / Powder or Tablet / Cannabis Drink / Hard Seltzer/Canned Cocktail:

Judges are looking for a clear message about why your product is the most innovative/exciting product in this category and what makes it stand out. The judges would love to hear about flavor combinations, points of differentiation, added value, and market impact.

Best Premium Drink

As well as delivering on taste and refreshment, the judges are looking for premium drinks that feature top-quality ingredients and craftsmanship. In your entry, you may wish to consider how your product offers added value, differentiation and sophistication, as well as market impact and brand appeal relevant to the target audience.

Best New Drink Concept

Judges are looking for new beverages that demonstrate innovative concept(s) and product differentiation. This includes drinks that have the potential to develop a new product category or extend consumer choice.

Best New Brand / Brand Extension

Judges are looking for newcomer brands or brand extensions that clearly communicate benefits – from nutrition, health, functionality, or superior refreshment – and have delivered a unique proposition either through innovative ingredients or packaging, environmental sustainability, clean label, or ethical behavior.

Best Technology Innovation

Judges are looking for innovative technologies in processing, manufacturing, packaging, distribution or vending. This includes innovations that offer new technologies that save time or money in beverage manufacturing, change the way in which consumers access and consume beverages, improve packaging line efficiency and safety, improve tracking through smart technology, or improve environmental sustainability criteria.

Best Packaging/Label Design

Judges are looking for packaging designs and innovations that measurably improve consumer convenience, usability, and reduction of waste material, as well as offer added value for brand owners and create differentiation through excellence and original design/appearance. The packaging/label design needs to effectively communicate the ingredients and benefits of what's inside.

Best Marketing or Social Media Campaign

Judges are seeking print, digital, or point-of-sale marketing campaigns, activations, and promotions that entertain, raise awareness, demonstrate originality, and promote or provide education around specific themes. Here you are welcome to send a one-page document of additional video content and imagery to help illustrate your marketing message.
